O Reilly Media, Inc, USA, United States, 2008. Paperback. Book Condition: New. 2nd Revised edition. 231 x 178 mm. Language: English . Brand New Book. This guide is strikingly different from other books on Microsoft . Rather than loading you down with theory, the new edition of 3.5 Cookbook gives you more than 150 coding solutions and best practices for real problems you re likely to face with this technology using Visual Studio 2008 and the 3.5 platform. Organized to help you find the topic and specific recipe you need quickly and easily, this book is more than just a handy compilation of cut-and-paste C# and VB code. 3.5 Cookbook also offers clear explanations of how and why each code solution works, warns you of potential pitfalls, and cites sources of additional information so you can learn to adapt the book s problem-solving techniques to different situations. This collection of timesaving recipes covers vital topics including: connecting to data; retrieving and managing data; transforming and analyzing data; modifying data; binding data to user interfaces; optimizing data access; enumerating and maintaining database objects; and, maintaining database integrity. Ideal for ADO.N ET programmers at all levels, from the relatively inexperienced to the most sophisticated, this new edition covers the significant 3.5 upgrade, including new programming tools, such as LINQ, that are key to working with WinFS applications. 3.5 Cookbook offers a painless way for those of you who prefer to learn by doing when it comes to expanding your skills and productivity.
