Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.How do I make a volcano? How can I grow my own crystals using salt? Learn how to make water disappear? Learn what happens when you trap liquid? Young children ask their parents hundreds of questions like these. In search of answers, we use science to both enlighten and delight. Science Experiments Volume 3 provides examples of 25 MORE simple experiments (Chemistry) that you can be Made at Home and do with your children. It is an introduction to the wealth of material in many other books available in libraries and bookstores. Science Experiments engages young children. It has experiments they can see, touch, manipulate, and modify; situations that allow them to figure out what happens--in short, events and puzzles that they can investigate, which is the very stuff of science. All the experiments have been tested by a group of moms and they work great! But most importantly, kids of all ages are observing, asking questions, learning science, and loving it! And, science experiments are not a hassle anymore, because it s all in the bag! This book suggests ways you can interest your children from about 3 to 10 years old in science. It includes: - Some basic information about science; - Instructions to assemble 25 easy science experiments you can Make at Home for children to do - some alone, some with supervision both inside and outside the home; - A brief description of scientific concepts, and a list of online resources; - Many of the experiments cost little or nothing and require no special equipment. They are convenient, easy, economical, fun, engaging, and educational. Together, with this book, parents and children can: -Learn how fires are put out;...
