Leadstart Publishing Pvt Ltd, India, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Plato extolled the Philosopher-King as the ideal of rulers. In today s context, the world needs Philosopher-Managers and Philosopher- Counsellors to deal with the crises of modernity at the organisational and individual levels. With this as its central theme, Philosophy in Management and Counselling, is a blueprint for harnessing the practical strengths of philosophy to alleviate human problems ? both physiological and psychological ? that haunt today s enterprise. We have long suffered the ill-informed disconnect of organisational methods/practices from the distilled wisdom of philosophical concepts gifted by wise men of East and West. The thrust of the book is on understanding the operational dynamics of one s cognitive system and reorienting it, using the methods of Clinical Philosophy. Emphasis is placed on the importance of logical and factual congruency in effective communication and decision-making. The author brings his invaluable knowledge and experience as an academician and professional to present this novel theme. With rare panache, he takes the reader on a guided tour of eminently workableconcepts that have remained the exclusive domain of philosophical high priests. The book addresses a wide readership ? Management Professionals, Students of Philosophy, Psychotherapists, Medical Practitioners, Psychologists, Counsellors, and of course, all those who thirst for new knowledge.
