White Crow Books Ltd, United Kingdom, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Well before Darwinism, as it came to be called, impacted the educated world during the last four decades of the 19th Century, mainstream religion was in decline, as science and its concomitant, rationalism, took hold. Thomas Paine s book, The Age of Reason, published in three parts (1794, 1795, and 1807) influenced many educated people to repudiate their religious beliefs, including both God and the idea of an afterlife. For those who sat on the fence, unsure as to what to believe, Darwinism was the knock-out blow, since it was perceived as totally refuting the biblical account of creation as set forth in the Book of Genesis, which said that God created the world in seven days. Falsus in uno, falso in omnibus - false in one, then false in all - seems to have been the logical conclusion. After all, if the Bible had been inspired by God, as religious leaders proclaimed, how could an all-knowing God be so wrong? Therefore, god must not exist, and if there is no god, then there must not be an afterlife, either....

Reviews

Totally among the best publication I actually have actually go through. It can be filled with wisdom and knowledge Once you begin to read the book, it is extremely difficult to leave it before concluding.
