The Readers Brain: How Neuroscience Can Make You a Better Writer

By Yellowlees Douglas

Cambridge University Press. Paperback. Condition: New. 250 pages. Dimensions: 7.8in. x 5.1in. x 0.8in. Have you ever found yourself re-reading the same sentence four or five times and thought I should get more sleep? Are you clueless as to why one paragraph just seems to flow while you simply can't recall the contents of another? Guess what: you are not alone. Even the best writers fail to grasp why their writing works. The Readers Brain is the first science-based guide to writing, employing cutting-edge research on how our minds process written language, to ensure your writing can be read quickly, assimilated easily, and recalled precisely - exactly what we need to transform anyone into a highly effective writer. Using the 5Cs - clarity, continuity, coherence, concision, and cadence - this book combines irreverent humour with easy-to-follow principles that will make readers perceive your sentences, paragraphs, and documents to be clear, concise, and effective. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

This publication is really gripping and exciting. It really is basic but unexpected situations in the 50% in the book. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Prof. Salvador Lynch

The publication is simple in read easier to comprehend. It really is rally interesting through looking at time period. I found out this book from my i and dad suggested this pdf to discover.
