Date :2007-12-1. Radiation therapy is the primary treatment of malignant tumors. 70% of cancer patients in different stages of the disease because the need for different purposes radiotherapy. With the development of computer technology. clinical radiation therapy is also developing rapidly. making the continuous improvement of the efficacy of radiation therapy. and complications resulting from radiation therapy are further reduced. Now. with our cancer incidence and mortality rates continue to rise. patients need to receive radiation therapy also increased. there is an urgent need for more physicians in radiation therapy and related physical and technical personnel. Radiation therapy is now carrying out more and more medical institutions. while receiving radiation therapy system. trained personnel is relatively small. According to the Ministry of Health requirements in radiation therapy physicians. physicists and technicians required to participate in national organizations. training and examinations to obtain the relevant license to engage in the corresponding induction of radiation treatment. In our current medical education in radiation therapy is also a lack of education. the corresponding reference book is not a lot. we mainly refer to the Radiation Therapy (third edition) and modern oncology (second edition) and other related books. combined with years of teaching experience and understanding of this resource materials prepared. mainly different types of multiple choice questions to read from different aspects of radiation therapy-related knowledge. It should be noted. the reader should be teaching learning-based. supplemented by the book soldier. you must first thoroughly understand the material content of the book do the exercises in order to be more effective. achieve the desired results. not upside down. This book is for readers of...
