Finally, I shall give a very cheap and very good recipe to colour ornamental Grass and Moss a beautiful green. If a dark green is required, take two parts of boiling water, one ounce of alum, and half an ounce of dissolved indigo carmine; plunge the Moss or Grass into the mixture, shake off the liquid, and dry the Grass or Moss in an airy, shady place. In the winter, however, they should be dried by means of fire-heat. If a light green is required, add to the above mixture more or less picric acid, according as a more or less light shade is required. I have now communicated all I know about the art and secret of preserving flowers, which has become so very important to our flower-trade during the last ten years. FERN-FROND DESIGNS...
