

Procedure-Related Cancer Pain In Children (Paperback)

By Christina Lioffi

Taylor Francis Ltd, United Kingdom, 2015. Paperback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. Research has demonstrated that children with cancer and their parents regards procedure-related pain as one of the most difficult parts of having cancer, and their distress continues years after the completion of anti-cancer treatment. This is a practical how to book that will provide readers with the knowledge, skills, structure and techniques to help young patients and their families to cope with painful medical procedures. The author has gathered together over 10 years experience in clinical pediatric oncology and palliative care to provide a concise overview of procedure-related pain. The book describes the pharmacological and psychological methods of pain relief and how they may be combined, along with the difficulties that may be encountered in their implementation. It also encourages better integration between research work and clinical practice. This is an essential guide for all healthcare professionals working with young people in palliative care or oncology, or those working with children undergoing painful treatments for other conditions such as those with diabetes or those undergoing...
