Forgotten Books, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Harmony Modernized: A Course Equally Adapted for Self-Instruction or for a Teacher's Manual The Science of Harmony is the grammar of music. For any one who occupies himself with music, a knowledge of the science of harmony is just as indispensable, as a knowledge of grammar is to one who wishes to acquire more than a superficial acquaintance with a language. The circumstance, that the harmony-exercises are for very simple pedagogical reasons not merely analytic, but, for the most part, necessarily synthetic, easily leads the pupil to regard them as preparatory work in composition; this they are, in point of fact, in no other sense than (let us say) orthographical and grammatical exercises are a preparation for writing poetry; no less elementary, no less pensable.
