

Message Design and Development - the core technology of distributed application development

Filesize: 8.95 MB

Reviews

I actually started off looking over this publication. I have read through and so i am certain that i am going to likely to study again yet again later on. I am easily will get a delight of reading a written pdf.

(Ross Hermann)

MESSAGE DESIGN AND DEVELOPMENT - THE CORE TECHNOLOGY OF DISTRIBUTED APPLICATION DEVELOPMENT

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 302 Publisher: Electronic Industry Pub. Date :2011-8-1. At this stage of the distributed application development. including multi-layer architecture. soa. webservice. grid or cloud computing. generally do not have to start from the bottom of the network communication . largely based on such corbaaiop. dcom. rmi. jms and ibmmq. tibco messaging middleware and other tools or protocols mature. and its core technology and system messages are. The vast majority of distributed information technology is introduced or mature tools and protocols to use. or knowledge of the underlying network communication is introduced. while the message in between the internal principles and detailed technical implementation mechanism. Few people really understand and are interested. and this is the book's main focus. This book detailed disclosure of the information system of internal principles and implementation mechanisms: how to organize the message object in the form of complex data types How messages are sent from one machine to another machine How to implement remote procedure call through the message How to achieve cross-platform distributed messaging How to manage a variety of types of messages How to manage the message queue Enterprise-class multi-task concurrent how to control How to ensure a large number of messages and tasks will be in time The reasonable use of system resources mechanism with soap jms What is the difference and contact. are the contents of the book to talk about. This book closely code examples. based on object-oriented design and implementation. to guide through the book. the message can be designed and developed a prototype system. Contents: Chapter 1 Introduction 1.1 tcpip information technology 1.1.1 Introduction to the basics 1.1.2 tcp socket programming with udp 1.1.3 tcpip based 1.3 1.2...
