

Possibilities of Steam Railway Electrification (Classic Reprint)

By Unknown Author

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Possibilities of Steam Railway Electrification The first part of this paper is a reprint of Part I of Messrs. Merz and McLellan s report of 1914 on the feasibility of electrifying the suburban area of the Eastern Bengal Railway. The second part is a reprint, with the kind permission of the management of the Railway Gazette and Railway news, of an article on the Possibilities of Steam Railway Electrification by Mr. Calvert Townley, which was published in the issue of 11th July 1919 of that magazine The third part is a report by Mr. A. R. Gundry, A.M.I.E.E., A.M.I.M.E., Electrical Engineer, Eastern Bengal Railway, on the electrification of various railways in England together with an account of certain electrical works also visited by him when in England. In view of the growing importance of the subject to railway men the above three papers are worthy of careful study. Reviews

An incredibly awesome publication with perfect and lucid reasons. It can be written in simple phrases and not confusing. I am just delighted to let you know that this is actually the very best publication I actually have studied during my very own lifestyle and could be the best publication for actually.
