Pearson, United States, 2016. Hardback. Condition: New. Language: English . Brand New Book. This product is the Life of the Edition access card for Developmental Mathematics: Prealgebra, Beginning Algebra, and Intermediate Algebra - Life of the Edition Standalone Access Card, 1/e. ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson s MyLab Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson s MyLab Mastering products. NOTE: Make sure to use the dashes shown on the Access Card Code when entering the code. The Sullivan/Struve/Mazzarella Algebra program is designed to motivate students to do the math at home or in the lab through a full suite of resources that support a variety of learning environments. Instructors can choose the ideal combination of resources for their students: The text is known for its two-column example format that provides annotations to the left of the algebra. These annotations explain what the authors are about to do in each step (instead of what was just done), just as an instructor would do. Two MyMathLab(r) course options are now available: a standard course and a Ready to Go course. The Ready to Go option provides premade assignments for every section of the text. NEW! The Video Notebook is an unbound, three-hole punched workbook/note-taking guide that asks students to write down important definitions and procedures and work through key examples as they watch the Author in Action videos.
