

## Cattle In The Cold Desert Expanded Edition.

By Young, James A.; Sparks, B. Abbott.

University of Nevada Press, Reno, 2002. Softcover. Book Condition: New. Expanded Edition. 336 pages. Softcover. New book. AMERICAN WEST. Cattle in the Cold Desert brilliantly combines a lively account of the development of the Great Basin grazing industry with a detailed scientific discussion of the ecology of its sagebrush/grassland plant communities. The volume traces the history of white settlement in the Great Basin from about 1860, along with the arrival of herds of cattle and sheep to exploit the forage resources of a pristine environment and illustrates how the herdsmen interacted with the sagebrush/grasslands of the cold desert west. We see the results of a grand experiment initiated by men willing to venture beyond the limits of accepted environmental potential to settle the Great Basin. The result is an insightful discussion of the grazing industry in the Intermountain West. First published in 1985, this new paperback edition from 2002 includes an additional chapter that addresses the impact of wild mustangs on the Great Basin rangelands, and an epilogue that discusses changes in rangeland management and in rangeland conditions, especially the impact of recent wildfires. As concern over the future of the Great Basin's unique rangeland environment and its principal agricultural...
