Date :2007-08. We should focus on education. especially university education. Here the word university education. university education is a common problem. The purpose of our attention is through in-depth study of these problems. propose solutions to the problem. To influence state or local government policy and decision-making. China s university education is in a period of change. there are too many issues that we need to pay attention to research. there are many issues worthy of our attention. to study. For example. the ability to reform the way for investment in university education. students and their families to reduce the economic pressure (such as government loans to Australian model)? Now the government can reform the University of grants. in order to achieve fair competition in the Chinese higher education in the coordinated development (University Grants Committee of the British government mechanisms and methods should learn)? Can reform of the private universities now operating mechanism. so that China s private higher education is no longer a for-profit industry? Whether the reform of...

Reviews

A superior quality ebook and also the font used was interesting to read through. This is for all who statte there was not a well worth reading. I discovered this publication from my dad and i encouraged this pdf to learn.

-- Felix Lehner Jr.

It is fantastic and great. It generally is not going to cost an excessive amount of. You will like the way the blogger create this book.
