Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Siebel 8 Consultant Exam These questions are similar to the ones asked in the actual Test. How should I know? I know, because although I have been working as a Siebel Consultant for many years, I have myself recently certified with the latest version of the Certification test. Before you start here are some Key features of the Certification Exam. The Siebel 8 Consultant certification is designed for candidates who possess a strong foundation and expertise in the Siebel application. This exam targets the advanced intermediate-level implementation team member. Up to date training and field experience are strongly recommended. This certificate builds on basic consultant skills and experience that is then refined by practical experience during several projects. Candidates must also demonstrate understanding of how to use the Siebel Applications, Knowledge of Access Control, Users/Positions, Client Types, State Model, Application Deployment, and Workflow, among other things. The exam is Computer based and you have 120 minutes to answer 60 Questions. The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. Some of the Questions have more than one correct answer. You must get ALL the options correct for you to be awarded points. For questions with a single answer, the answers will have a button next to them. You will be able to select only one button. For questions with multiple answers, the answers will have a tick box next to them. This allows you to select multiple answers. You are not allowed to use any reference materials during the certification test (no access to online documentation or to any Oracle system). Clearing the Certification will not automatically lead you to a job...
