In addition, national data show that a small proportion of WTW competitive grant funds went to FBOs. According to Labor, 6 of 191 contracts for these funds went to FBOs in fiscal years 1998 and 1999; these contracts totaled 16. 2 million, or approximately 2 percent of WTW 7 competitive grant funds in those years. National data are not available to indicate the magnitude of contracting with FBOs in other charitable choice programs we examined. Labor did not have information about the proportion of WTW formula grants that went to FBOs. States administer these grant funds through local entities. In addition, HHS has not compiled national data on the level of contracting with FBOs using CSBG and SAPT funds. Although national information is not available, in the five states we visited we found that FBOs received 9 percent or less of SAPT funds contracted out by states. In addition, FBOs represented between 2 and 20 percent of the organizations licensed or certified by these five states to provide substance abuse treatment services, as shown in table 4.
