UNITED STATES - CANADA SOFTWOOD LUMBER DISPUTE

[DOWNLOAD PDF](#)

Betascript Publishers Dez 2009, 2009. Taschenbuch. Condition: Neu. Neuware - High Quality Content by WIKIPEDIA articles! The United States Canada softwood lumber dispute is one of the most significant and enduring trade disputes in modern history. The dispute has had its biggest effect on British Columbia, the major Canadian exporter of softwood lumber to the United States. The heart of the dispute is the claim that the Canadian lumber industry is unfairly subsidized by the federal and provincial governments. Specifically, most timber in Canada is owned by provincial governments. The price charged to harvest the timber (the 'stumpage fee') is set administratively rather than through a competitive auction, as is often the practice in the United States. The United States claims that the provision of government timber at below market prices constitutes an unfair subsidy. Under U.S. trade remedy laws, foreign goods benefiting from subsidies can be subject to a countervailing duty tariff to offset the subsidy and bring the price of the product back up to market rates. 84 pp. Englisch.
