Aquaponics: A revolutionary technique of growing healthy plants, ten times more in less time, with the help of fish right in your own backyard. Learn everything you need to know about how to start your very own soil-less garden. This book is for newbies in the world of aquaponics. If you are tired from fast foods of the fast-paced bustling city life and would love to garden and grow all natural food but away from the comfort of the countryside, worry no more because this book solves your problem. If you are someone looking for a simple cheap alternative ways of farming, or someone that wants a healthier cost-saving food source this book is right for you. You will learn a life-changing secret of the agricultural world that you can actually grow plants twice more, with a faster growth rate, in the same amount of space that your neighbors have, without using soil, while the fish do your work. You will be able to transform your own garden using almost 70 less energy. You will unearth this old farming technique that saves your time, money, effort and space. Not only will you be able to save time or money, but you will also help save Mother Nature because this system is in harmony with nature and not against it. By the time you finish reading this book you are going to be able to produce your own fish and grow healthier organic plants. No more fertilizer needed nor constant watering involved. Why You Must Have This Book! In this book you will learn how to raise plants and fish simultaneously in the aquaponics system. This book will teach you the...
