Reviews

A brand new e book with an all new point of view. I have got read and i am sure that i am going to likely to read through once more once more in the future. It is extremely difficult to leave it before concluding, once you begin to read the book.

Excerpt: . . . the sand, and deposited our provisions and water in the roofless house, when we hear a commotion in the river--a swarm of fish called tailer are making havoc among a school of small mullet, many of which fling themselves out upon the sand. Presently all is quiet again, and we get our lines ready. For whiting and silvery bream rather fine lines are used, but we each have a heavy line for flathead, for these fish are caught in the tidal rivers on a sandy bottom up to three feet and four feet in length. They are in colour, both on back and belly, much like a sole, of great width across the shoulders, and then taper away to a very fine tail. The head is perfectly flat, very thin, and armed on each side with very sharp bones pointing tailward; a wound from one of these causes intense inflammation. The fins are small--so small as to appear almost rudimentary--yet the fish swims, or rather darts, along the bottom with amazing rapidity. They love to lie along the banks a few feet from the shore, where, concealed in the sand, they can dart out upon and seize their prey in their enormous gripsack mouths. The approach of a boat or a person walking along the sand will cause them to at once speed like lightning into deep water, leaving behind them a wake of sand and mud which is washed off their backs...
