Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.In this new theoretical treatise, Surendra Kumar Sagar explores the intersections among science, religion, and philosophy. He introduces revolutionary new concepts that could change the way you look at all three disciplines. As Sagar writes in his introduction, the world can be a violent, frightening place. Current wars, aggressions, climate change, and more are pushing the Doomsday Clock closer to midnight. Already at three minutes to midnight, the human race is in trouble. Sagar uses Intelligent Field to urge you to question traditional religion and scientific theories. Now is the time to start looking at new solutions to old problems and new concepts to explain universal truths. Sagar introduces you to the concept of the traveling cosmic mind, which fits perfectly within theories of relativity and quantum entanglement. Sagar s model of the universe rejects the multiverse theory and opens up new doorways of discovery. In addition to this revolutionary new concept, Sagar discusses the cosmology of our universe, the idea of an intelligent, omnipresent infinite mind, and the possibilities of everlasting consciousness. By receiving new tools to examine the universe, you can start working on building a better world-before our time runs out.
