In the ensuing months, the same disease reappears in other victims, all from the Mission District of San Francisco. The epidemic explodes out of control, taking the lives of countless young men, and overwhelming University Hospital microbiologist Lynn Lucas and her colleagues. Fear grips the city and accusations replace reason, while Lynn and other scientists attempt to determine the source of the lethal outbreak. In an effort to piece together the intricate medical puzzle, Lynn researches past cases and interviews current patients, soon realizing the disease is already widespread. She perseveres despite witnessing obvious prejudices toward the victims, and she confronts the divided hospital staff and her own splintered family, who must overcome their own fears to band together to combat the threat.
