SUBSTITUTION OPERATORS ON SOME FUNCTION SPACES

By Kuldip Raj

LAP Lambert Acad. Publ. Aug 2010, 2010. Taschenbuch. Book Condition: Neu. 220x150x6 mm. This item is printed on demand - Print on Demand Neuware - The studies involving composition of functions have been pursued for a long time but the study of linear operators induced by composition with fixed functions has relatively a short story.In the begining composition operators were known as substitution operators. The adjoint of the unilateral shift operator on $l^2(N)$ and bilateral shift operator on $l^2(Z)$ are well studied examples of composition operators. The systematic study of composition (substitution) operators was started by Eric A. Nordgren in 1968. These operators have been the subject matter of study over the past 40 years.The applications of substitution operators are very much used in engineering and sciences. 96 pp. Englisch.

Reviews

These sorts of pdf is the greatest ebook offered. We have study and that i am sure that i will going to study once more once more in the future. Its been printed in an remarkably simple way and it is only after i finished reading through this pdf through which in fact transformed me, affect the way i believe.
-- Mr. Dashawn Block MD

It is straightforward in read through preferable to fully grasp. It is really simplistic but excitement in the 50 percent of the pdf. Your life span will be enhance once you comprehensive looking at this pdf.
-- Jorge Hammes
