Naval Institute Press, United States, 2007. Paperback. Condition: New. Reprint. Language: English . Brand New Book ***** Print on Demand *****. This work features the fresh thinking of twenty-eight leading authors from a variety of military and national security disciplines. Following an introduction by Lt. Gen. James Dubik, Commander I Corps, U.S. Army, the anthology first considers the general question of whether there is a distinctly American way of war. Dr. Colin Gray's opening essay *The American Way of War: Critique and Implications* provides a state of the question perspective. Sections on operational art, with writers addressing the issues in both conventional and small wars; stability and reconstruction; and intelligence complete the volume. Among the well-known contributors are Robert Scates, Mary Kaldor, Ralph Peters, Jon Sumida, Grant Hammond, Milan Vego, and T.X. Hammes. The anthology is part of a larger *Rethinking the Principles* project, sponsored by the Office of Force Transformation and the U.S. Navy to examine approaches to the future of warfare. Footnotes, index, and a bibliographic essay make the work a useful tool for students of war and general readers alike.
