Createspace Independent Publishing Platform, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The objective today is to isolate targets through technological harassment, remote viewing, electronic surveillance, and also focus on using everyone around them subliminally influenced. The target is depicted to the community as incompetent, disloyal, troublesome, mentally unbalanced or ill, to mobilized community stalking efforts. This permits an expertly crafted promotion and denial that highly advanced mind invasive technology exists. The whistleblower / targeted individual, targeted for various reasons, is then heinously, maliciously, secretly, abused by electromagnetic systems difficult to prove because it is unseen to the human eye or detectable as extremely low frequency (ELF) radio and microwaves waves. The objective is to push the target over the edge to suicide, hurting self or others, entrapped, jail or to be institutionalized. Others watch and become frightened preventing them from speaking out against these extreme, immoral, and unethical injustices in the form of covert terrorism with many players and denial of Human Rights. Remote Neural Monitoring testing has also thrived within the Association of Psychiatry historically. The electromagnetic assaults, physical, psychological, and verbal, continue until the target is left discredited, exhausted, and in poor health, financially crippled, or his or her life is in ruins or worse. And, it is legal! Remote Brain Targeting confirms Pittman's credibility in this five-book series which details her personal experiences and others, detailing how the slow kill effect is being used today, as a form of physical coercion, electromagnetically. All five books in the Mind Control Technology book series are a must read and a wake-up call to an older generation familiar with and knowledgeable of some of these programs, specifically MK-ULTRA, mind control testing officially in the 50s, 60s, and 70 s, and...
