OPTIMAL CONTROL THEORY AND ITS APPLICATIONS: PROCEEDINGS OF THE FOURTEENTH BIENNIAL SEMINAR OF THE CANADIAN MATHEMATICAL CONGRESS UNIVERSITY OF WESTERN ONTARIO, AUGUST 12 25, 1973

DOWNLOAD

Springer. Paperback. Book Condition: New. Paperback. 420 pages. Dimensions: 9.6in. x 6.7in. x 0.9in. This work (in two parts), Lecture Notes in Economics and Mathematical Systems, Volume 105 and 106, constitutes the Proceedings of the Fourteenth Biennial Seminar of the Canadian Mathematical Congress, which was held from August 12 to August 25, 1973 at the University of Western Ontario, London, Ontario. The Canadian Mathematical Congress has held Biennial Seminars since 197, and these have covered a wide range of topics. The Seminar reported in this publication was concerned with Optimal Control Theory and its Applications, a subject chosen for its active growth and its wide implications for other fields. Both these aspects are exemplified in these Proceedings. Some lectures provided excellent surveys of particular fields whereas others concentrated on the presentation of new results. There were six distinguished Principal Lecturers: H. T. Banks, A. R. Dobell, H. Halkin, J. L. Lions, R. M. Thrall and W. M. Wonham, all of whom gave five to ten lectures during the two weeks of the Seminar. Except for Dr. Dobell's, these will all be found in Volume 105. Besides the Principal Lecturers there were three Guest Lecturers: M. C. Delfour, V. Jurdjevic and S. P. Sethi, who presented substantial bodies of material in two or three lectures and which are included in Volume 106. Many of the participants also spoke and reports of some of these have also been included (Volume 106). This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
