By Henry A Paul MD, Henry A Paul

Createspace, United States, 2012. Paperback. Book Condition: New. 203 x 133 mm. Language: English . Brand New Book ***** Print on Demand *****.A nationally known psychiatrist and author specializing in children and adolescents, Henry A. Paul M.D. has practiced in New York City for over thirty years, and has appeared on hundreds of national and local television and radio shows. He has evaluated, treated, and prescribed medication for literally thousands of young people in settings that include hospitals, outpatient public clinics, residences, foster agencies, and in private practice, and has followed the progress of many of them over the course of many years. As a result of his specialty, Dr. Paul has experience prescribing all of the current psychotropic drugs, and has treated children and teenagers with all the varied disorders listed in the current psychiatric diagnostic manuals. He has seen the therapeutic effects of medication when administered properly, the harmful effects when they are abused or prescribed incorrectly, and has observed the side effects that occur on rare occasion. While Dr. Paul, a multi-published author, doesn't believe every child with a mental disorder needs medication, he strongly feels that some do. To withhold these important therapeutic agents can...
