

## DESCARTES: A Biography

Filesize: 9.12 MB

### ***Reviews***

*Complete guideline for publication fans. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.*  
*(Llewellyn Terry)*

Condition: New. René Descartes is best remembered for 'I think, therefore I am', but his main contribution to the history of ideas was to construct a philosophy that would be sympathetic to the emergence of the new sciences in the seventeenth century. He was midwife to the Scientific Revolution and a significant contributor to its key concepts, fashioning a philosophy that accommodated these needs whilst earning the unrelenting hostility of Catholic and Calvinist theologians. Descartes died in obscurity but became one of the most famous of philosophers. This is the first biography in English to address the full range of his interest in theology, philosophy and the sciences, tracing his intellectual development throughout his career. . . of great use to the scholar in the history of philosophy or the history of science . . . TIMES LITERARY SUPPLEMENT.
