Not the lightest of the duties required of children in school is the preparation of lessons from day to day through a series of years. Since not only the product but also the process of studying is of value to pupils who are preparing for life in an environment which furnishes frequent occasion for the use of both, it is an important part of the teacher s mission to see that the children know how to prepare their lessons intelligently and systematically. The necessity of knowing the logical and psychological basis of the process of studying. Should teachers desire to give their pupils training in correct habits of studying, they must possess a knowledge of the logical and psychological basis of the studying process in order to be scientific in their procedure. It might be added that their interest and their enthusiasm in the cause also depend upon this knowledge, since a subject which is not well understood, or which is...
