Brand New Book. 2008 NOMINEE The Council on Botanical and Horticultural Libraries Annual Award for a Significant Work in Botanical or Horticultural Literature .now we have easier and better access to grass data than ever before in human history. That is a marked step forward. Congratulazioni Professor Quattrocchi! - Daniel F. Austin, writing in *Economic Botany* The remarkable work of a brilliant botanist and linguist, this critically acclaimed unparalleled lexicon offers an indispensable guide for all those involved with plants and gardens, whether they are growing, studying, or writing about them. Detailing approximately 800 generic names and thousands of species of grasses, including cereals and forages, this three volume set lists all relevant properties related to the main and secondary uses of the grasses, as well as detailed descriptions and geographical distribution. Entries include genus, synonyms, and etymology, as well as vernacular names, rejected names, and orthographic variants. It provides a huge amount of obscure sources of nearly impossible to find information. Destined to become a seminal resource for those directly involved with botany, plant science, horticulture, and agriculture, this masterly referenced work will also enrich the understanding of any individual in the physical or social sciences who is fascinated with history, the birth of ideas, culture, the art of bibliography, and the evolution of linguistics. Utilizes a Myriad of Resources Cites Tens of Thousands of References The material found in the volumes has been painstakingly gathered from a wide variety of typical and atypical sources that includes both electronic and print media, as well as personal investigation. These sources include papers of general interest, reports and records, taxonomic revisions, field studies, herbaria and herbarium collections, notes, monographs, pamphlets, botanical literature and literature...
