BRILLIANCE AUDIO, United States, 2015. CD-Audio. Book Condition: New. Unabridged. 171 x 133 mm. Language: English . Brand New. From storm drains, illegal dumps, and flooded landfills, all of North America s most advanced technology flows down the Mississippi river microchips, nano-devices, pharmaceuticals, genetically modified seed and lodges in the Louisiana delta. Out of this mire emerges a self-organized neural net, drifting in the water: the Watermind. It can freeze, boil, condense, and move seemingly at will. CJ Reilly is a brilliant, sexy, self-destructive MIT dropout running away from Cambridge and the suicide of her ironic, emotionally-distant father. She is both infuriating and sympathetic. She is working as a laborer in Devil s Swamp near Baton Rouge, cleaning up a small pollution spill when she and her new lover, Max, discover the mysterious Watermind. Reilly s more interested in investigating it than containing it, but when it kills someone and escapes into the Mississippi, corporations, governments, protesters, the coast guard, and a really wacky underground journalist get involved. And there s no longer any question that it must be destroyed before it reaches the ocean. Watermind is Philip K. Dick meets The Blob, a postmodern combination of camp SF motifs and writerly ambition attacking serious subjects. M.M. Buckner s Watermind is powered by a lean, reaching prose, a protagonist so real you can practically reach out and touch her, and a tight techno-savvy plot that will leave you exhausted! The best book I ve read in years. -- William C. Dietz, author of Legion of the Damned.
