From the abdominal walls the phrenic and lumbar veins open into the inferior vena cava. From abdominal viscera the renal and adrenal veins open into the inferior vena cava. The right ovarian and right spermatic veins open into the inferior vena cava; the left ovarian and left spermatic veins open into the left renal vein which carries their blood to the inferior vena cava. The splenic (or lienal), gastric, and mesenteric veins form the portal vein, which is four inches long and enters the liver at the transverse fissure or porta (Figs. 112, 146). THE PORTAL CIRCULATION This is the circulation of venous blood through the liver. The portal vein bears the products of digestion from stomach and intestines; entering the liver at the porta or gate, it divides into branches which form an extensive network in its substance. Having...
