Pub Date: October 2012 Pages: 333 Language: Chinese in Publisher: The most important purpose of the environmental impact assessment of China Environmental Science Press is the use of technology under the generalized in order to prevent significant damage to the environment event or unexpected events occur. Today's huge production scale or regional development framework of a large number of hazardous substances are released into the natural circulation system, which brought a great deal of variation to the ecosystem. In this case, the natural environment will not be able to maintain its resilience when environmental damage caused by the long-term. As a result, the natural give ecological irreparable huge impact, especially to human health and safety. Nature the formation of polluting substances through the food chain enrichment process as well as the pollution of the multiplying effect, eventually along with the passage of time appears. For this reason, when we use technology for the realization of the negative impact of the predicted environmental prepare adequate countermeasures, become a very important issue. It goes without saying that the environmental impact assessment of the implementation of the largest purpose, that is, the people to carry out certain activities and the implementation of certain activities to maintain and protect its surrounding environment suitable and correct environmental quality. Into, the, to create a more favorable environment can not be ignored with a positive attitude. Contents: 1 Environmental Impact Assessment Introduction 1.1 Environmental Impact Assessment implementation methods 1.2 environment impact assessment of the implementation of the organization 1.3 Environmental Impact Assessment Implementation Considerations operating methods of environmental impact assessment section 2.1 of the actual operation method takes 2.2 ready operating natural environment Survey and Prediction...
