## ADVANCED MANUFACTURING TECHNOLOGY

2015. Soft cover. Book Condition: New. 1st Edition. Computers are influencing changes in the way manufacturing enterprises carry out their business operations and manage production functions. Computers aid in planning for the accomplishment of objectives through effective management. They assist in planning and establishing exactly where, how, and when various activities that are part of a long-term program are carried out. They help planners produce optimized schedules, improve production line efficiency, and use manufacturing resource planning (MRP II), which is a formal system for planning and managing a production function's resources. The use...
