However, GAO found that the findings, conclusions, and recommendations were not fully supported in many PEPFAR evaluations. Agency officials provided nearly 500 evaluations addressing activities ongoing in fiscal years 2008 through 2010 in all program areas relating to HIV/AIDS treatment, prevention, and care. GAO s assessment of a selected sample of seven OGAC-managed evaluations found that they generally adhered to common evaluation standards, as did most of a selected sample of 15 evaluations managed by CDC and USAID headquarters. Based on this assessment, GAO determined that these evaluations generally contained fully supported findings, conclusions, and recommendations. However, based on a similar assessment of a randomly selected sample taken from 436 evaluations provided by PEPFAR country and regional teams, GAO estimated that 41 percent contained fully supported findings, conclusions, and recommendations, while 44 percent contained partial support and 15 percent were not supported.
