Reviews

Here is the finest publication we have read right up until now. It is actually written in easy words instead of difficult to understand. It has been written in a remarkably easy way in fact it is only right after I finished reading this book in which it basically changed me, modified the way I really believe.

When Tooga is ready to hunt for himself, he wanders farther away from his mother and sister - out onto the pack ice where the seals congregate. But when he heads inland again, he discovers nothing but water in every direction. The pack ice has broken up and Tooga is on a huge ice floe and drifting south. By the time the floe finds land again, the young polar bear is 500 miles from home. Confused and starving, Tooga must find his way back through an unfamiliar landscape, and face a new threat he has never encountered before - man.
