Leadstart Publishing Pvt Ltd, India, 2012. Paperback. Condition: New. Language: English . Brand New Book. You are probably reading this bit because you ride a bike and you want to know how it works. Or maybe you wish to learn a thing or two about motorcycle maintenance. Better still, you probably wish to attempt servicing and maintaining your bike, all by yourself (the DIY way). This is the book for you then. To most of us, motorcycle maintenance is cleaning the bike and taking it for a service frequently. But there is actually much more to it than cleaning and oiling. It involves performing a specific set of tasks that need to be carried according to a specific schedule. But any of this information is not readily available and is too technical for the regular bike owner. This book aims to provide all that necessary information in the most straightforward simple fashion. It has been written specifically to serve an absolute beginner to motorcycle maintenance and the whole Do It Yourself (DIY) ethic. This book tries not just to show how easy motorcycle maintenance is but also to show how much fun it actually can be.
