iUniverse, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The present government in the United States was established in the eighteenth century. Now, in the twenty-first century, it is time for reorganization of the federal government and improvements in the organization of our state, county, and local governments. The First Constitutional Congress established the Congress, the Office of the President, and the Supreme Court. Powers were granted to each of the three branches of the federal government. The organization of the state, county, and local governments was not mentioned in the Constitution. Save Tax Dollars presents data pointing out the lack of proper organization of state and county governments that has added a very large amount of government overhead and resulted in inefficient use of taxpayer dollars. Federal, state, county, and local governments have not followed tenets used in the business world to establish efficiency and effectiveness. Why are you paying for excess government overhead? Are you satisfied with the current government organization? Are you ready for a change? Save Tax Dollars provides data that supports reorganization of government to save you paying excessive tax dollars.
