

## MATLAB Machine Learning (Paperback)

By Michael Paluszek, Stephanie Thomas

aPress, United States, 2016. Paperback. Condition: New. 1st ed.. Language: English . Brand New Book. This book is a comprehensive guide to machine learning with worked examples in MATLAB. It starts with an overview of the history of Artificial Intelligence and automatic control and how the field of machine learning grew from these. It provides descriptions of all major areas in machine learning. The book reviews commercially available packages for machine learning and shows how they fit into the field. The book then shows how MATLAB can be used to solve machine learning problems and how MATLAB graphics can enhance the programmer's understanding of the results and help users of their software grasp the results. Machine Learning can be very mathematical. The mathematics for each area is introduced in a clear and concise form so that even casual readers can understand the math. Readers from all areas of engineering will see connections to what they know and will learn new technology. The book then provides complete solutions in MATLAB for several important problems in machine learning including face identification, autonomous driving, and data classification. Full source code is provided for all of the examples and applications in the book. What you'll learn: An...

### Reviews

*This is an incredible ebook which I actually have ever go through. This can be for those who state that there had not been a really worth reading. I am just quickly can get a delight of reading a published book.*

-- **Ms. Colleen Ziemann V**

*This pdf is wonderful. It really is written in simple terms instead of hard to understand. It's been developed in an exceedingly simple way and it is just after I finished reading this ebook in which in fact modified me, alter the way in my opinion.*

-- **Ollie Powlowski**
