

## Army Health Promotion Risk Reduction Suicide Prevention Report - The Chiarelli Report (Paperback)

By United States Government Us Army

Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This report reflects a year s worth of work at the direction of the Army s Senior Leadership to provide a directed telescope on the alarming rate of suicides in the Army. It represents both initial findings of the Army Suicide Prevention Task Force and informs the future of Suicide Prevention within the Army. Suicide is a devastating event. What was once considered a private affair or family matter now threatens our Army s readiness. Equally alarming to the rising rate of suicide in the Army is an increasing number of Soldiers who engage in high risk behavior. Equivocal deaths,1 deaths by drug toxicity, accidental deaths, attempted suicides, and drug overdoses are reducing the ranks and negatively effecting the Army s ability to engage in contingency operations in Iraq and Afghanistan. These deaths further strain efforts to sustain institutional operations. No one could have foreseen the impact of nine years of war on our leaders and Soldiers. As a result of the protracted and intense operational tempo, the Army has lost its former situational awareness and understanding of good order...
