

Friends Reunited

By Frederic P. Miller

Alphascript Publishing. Taschenbuch. Book Condition: Neu. Neuware - Reunited is a portfolio of social networking websites based upon the themes of reunion with research (separate site Genes Reunited), dating and job-hunting. The first and eponymous website was created by a husband and wife team in the classic back bedroom internet start-up; it was the first online social network to achieve prominence in Britain, and it weathered the dotcom bust. Each site works on the principle of user-generated content through which registered users are able to post information about themselves which may be searched through by other users. A double-blind email system allows contact between users. Formerly, the site cost Pds. 7.50 per year to use but is now free. The main Friends Reunited site aims to reunite people who have in common a school, university, address, workplace, sports club or armed service; the sister site Genes Reunited enables members to pool their family trees and identify common ancestors; the Dating and Jobs sister sites link members with similar attributes, interests and/or locations. 84 pp. Englisch.
