The rangers should traverse that part of the reserve boundary along their ranges, at least once a month. Under the present method used by some rangers, of patrolling only the roads nearest the lines, adjoining owners might cut over them for a long while and the rangers not be aware of it. Rangers should be encouraged to operate small nurseries in connection with their work and should be supplied with the necessary material for planting and instructions concerning the raising of seedlings. There are many half days when a ranger would otherwise be doing nothing that his time might profitably be spent in a nursery. The seedlings raised could be used to plant the many small blanks found in almost all forests. All rangers should give their entire time to work on the reserves, and should not be engaged in...
