

Postmortem Fingerprinting and Unidentified Human Remains (Paperback)

By Marzena Mulawka, Larry Miller

Taylor Francis Inc, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Fingerprint identification is the most efficient, rapid, and cost-effective forensic identification modality. Postmortem Fingerprinting and Unidentified Human Remains is a consolidated and thorough guide to the recovery, identification, and management of unidentified postmortem fingerprint records - topics from postmortem fingerprint processing to database submission and case management are discussed. Additionally, a postmortem processing workflow is described, which delineates various basic and advanced fingerprint recovery techniques used to acquire examination-quality records. Furthermore, Postmortem Fingerprinting and Unidentified Human Remains discusses the complexity of antemortem fingerprint databases and how to access each database for humanitarian purposes, bringing a modern value perspective to the topic.
