

Hands-on electrical and electronic test instructions

Filesize: 1.12 MB

Reviews

This written publication is fantastic. I am quite late in start reading this one, but better then never. You will not feel monotony at at any time of your respective time (that's what catalogues are for concerning should you ask me).
(Tevin McClure)

HANDS-ON ELECTRICAL AND ELECTRONIC TEST INSTRUCTIONS

To save **Hands-on electrical and electronic test instructions** eBook, make sure you click the button under and save the file or have accessibility to additional information that are related to HANDS-ON ELECTRICAL AND ELECTRONIC TEST INSTRUCTIONS book.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 113 Publisher: Fudan University Pub. Date :2011-8-1. Hands-on electrical and electronic test instructions for vocational college students in the actual situation. in line with the students to accept. master. and the amount of knowledge content. principles to be applied. comply with the work-process-oriented teaching materials written in the direction of reform. Deep experiment content. step by step. and there is some practical. interesting strong circuit design. emphasis on practical. to help students improve their interest in learning. enhance the comprehensive experiments and analyze and solve problems. Hands-on electrical and electronic test instructions. edited by the Qing Fu. Contents: Chapter Electrotechnical experiment using a digital multimeter the resistance of experimental identification of two color electronic components commonly used in Experiment 3 Experiment 4 measured Kirchhoff's law of superposition theorem verification experiment five experiments six fluorescent verify the installation and power factor to improve the experimental seven-phase AC circuit experiment eight experimental three-phase asynchronous motor with nine single-phase induction motor Reversible control Chapter analog electronics experiments ten single-tube amplifier experiment eleven bridge rectifier and voltage regulator circuit experiment twelve linear application of integrated operational amplifier experiment thirteen application of integrated operational amplifier non-linear waveform generator experiment experimental fourteen Chapter fifteen integrated power amplifier digital electronic technology experiment sixteen basic combination of logic gate circuit experiment seventeen logic and its applications and its experimental application of experimental nineteen eighteen trigger counter experiment twenty decoder and digital display experiment twenty-one da and ad converters experimental twenty-two 555 Application of Chapter IV and the basic circuit hands and making small circuit experiment twenty Sanko control circuit experiment twenty-four temperature control circuit harmonic oscillation experiments over twenty-five flashing lights circuit production test twenty-six...
