Reviews

This is actually the finest pdf i have got study right up until now. It can be full of wisdom and knowledge Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Reese Morissette II)

GEOGRAPHY: IDEAS IN PROFILE

Profile Books Ltd, United Kingdom, 2016. Paperback. Book Condition: New. Main. 198 x 130 mm. Language: English . Brand New Book. Ideas in Profile: Small Introductions to Big Topics Geography gives shape to our innate curiosity; cartography is older than writing. Channelling our twin urges to explore and understand, geographers uncover the hidden connections of human existence, from infant mortality in inner cities to the decision-makers who fly overhead in executive jets, from natural disasters to over-use of fossil fuels. In this incisive introduction to the subject, Danny Dorling and Carl Lee reveal geography as a science which tackles all of the biggest issues that face us today, from globalisation to equality, from sustainability to population growth, from climate change to changing technology - and the complex interactions between them all. Illustrated by a series of award-winning maps created by Benjamin D. Hennig, this is a book for anyone who wants to know more about why our world is the way it is today, and where it might be heading next.
