Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The human physical body has not changed much in many thousands years; however, the human Consciousness has expanded enormously over the same period. The human Consciousness has evolved from the cave man, hunter/gatherer stage to the modern civilized human. In recent history (the last 200 years or so), the evolutionary process has accelerated immensely, due in part, to the huge advances in science and technology. These advances may seem haphazard to the ordinary person but they are not. Universal laws such as the Law of Cause and Effect, Relativity, and Evolution guide these advances forward in an inconspicuous but firm way. We have come a long way in our development but we still have a long, long way to go in our future. The stages of Consciousness described in this book are: 1.Plant Consciousness Stage 2.Animal Consciousness Stage 3.Human Consciousness Stage 4.Soul Consciousness Stage 5.Cosmic Consciousness Stage 6.Spiritual Consciousness Stage Each stage of development takes many earth years to come to fruition, but each step is a gigantic step towards true love, peace, joy, and bliss. Also discussed is the relationship between the human brain and the mind. Three levels of mind discussed are: 1.Sub-conscious mind, also called Instinctive Mind. 2.Conscious Mind, also called Intellectual Mind 3.Super-conscious mind, also called Intuitive Mind Other questions that are analyzed and scrutinize are as follows: -What is the personality and ego? -What is the Higher Self? -What are the functions of Universal Laws? -What is the relationship of modern science and Spirituality? -What is reincarnation? -What is linear and non-linear time? -What is Nature s Guiding Intelligence (NGI)? -What are the Higher Domains of the Universe? -What is the process of Physical Death?...
