FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Foreign Crops and Markets, Vol. 59: August 22, 1949 Production of wheat in Asia is estimated to be about 200 million bushels smaller than last year's harvest, principally because of, smaller crops in China and Turkey. Reduced yields account for the decrease of roughly 100 million bushels in China, since acreage is reported at about the 1948 figure. In Turkey, however, both acreage and yields are reported substantially smaller than in 1948. Serious drought held up fall seeding and the area sown was reported to be 10 to 15 percent less than the area of recent years. Further, unfavorable growing weather reduced yields sharply. Rye acreage was also cut in Turkey, the only country of this area reporting rye. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
