

A Preliminary Report: On a Part of the Phosphates and Marls of Georgia (Classic Reprint) (Paperback)

Filesize: 1.61 MB

Reviews

It is in a single of my favorite pdf. Yes, it is engage in, still an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Dr. Keeley Windler)

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from **A Preliminary Report: On a Part of the Phosphates and Marls of Georgia** Venezuela, Guiana and the coast of Africa, in the last decade, have furnished the European markets with considerable quantities of guano; but, as a result of the more humid condition of the atmosphere, under which it has been accumulated, it is usually inferior to the Peruvian deposits in ammonia, and, consequently, less valued as a fertilizer. Previous to the introduction of guano into Europe, the chief commercial fertilizers used, were animal charcoal and crushed bone, the only form of phosphates then known. On account of the insolubility of these manures, it was frequently necessary to use from one to two thousand pounds per acre, in order to obtain satisfactory results. During the year 1841, Dr. Liebig, the German chemist, discovered a process of treating bones with sulphuric acid, which rendered the calcium phosphate soluble. Bones, thus treated, were found, by experiment, to have increased their fertilizing property more than fourfold. This important discovery was almost immediately followed by the erection of the first acid phosphate factory, in London, by J. B. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
