Tuttle Publishing, Japan, 2015. Hardback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. How Japan Can Reinvent Itself and Why This Is Important for America and the World. In 1979, the book *Japan as Number One: Lessons for America* by Harvard University professor Ezra Vogel caused a sensation in the United States by pointing out that Japan was surpassing America as world economic leader; the book remains to this day the all-time bestseller in Japan of non-fiction by a Western author. The book was timely: Japan's subsequent bubble era of the 1980s saw the country booming. But since the economic bubble burst at the start of the 1990s, Japan has been in decline. *Japan Restored* by Clyde Prestowitz, taking up Vogel's baton, is written as a vision of Japan in the year 2050, when the country's economic recovery has made it a world leader in every area of human endeavor. Prestowitz looks back to the present year as such a low point for Japan that a special reform commission was set up that helped the country regain its former position as a leader in technology, in business, and geopolitically. Looking at education, innovation, the role of women, corporate organization, energy, infrastructure, domestic government, and international alliances Prestowitz draws up a fascinating and controversial blueprint for the future success of Japan. As the eyes of the world turn towards Japan in the run-up to the 2020 Olympics, *Japan Restored* is as timely as the 1979 Vogel book that inspired it.
