Brand New Book ***** Print on Demand *****.Excerpt from Is Trade Unionism Sound?: A Suggestion for Outflanking the Power of Capital Just prior to the close of the war the Garton Foundation published, for consultative purposes, a short treatise from my pen dealing with some aspects of our industrial difficulties. In response, several valuable criticisms were received. These have been carefully considered, and the treatise slightly revised in the light they brought to bear on the subject. I am deeply indebted to the Garton Foundation for providing the opportunity of obtaining the opinion of others on such a debatable question as the one examined, and to all those who sent criticisms which have enabled me to see the position from points of view other than my own. Before the publication of the consultative edition a short outline of the theory had been prepared with the assistance of my nephew, Dr. W. B. Christopherson. This was read by the late Sir Roland K. Wilson, Bart., and the late Professor W. Smart, and the present treatise is the result of their criticism and advice. If the work proves to be of any assistance towards a solution of our industrial problems, credit is due to them.
