

Nord Und Sud Eine Deutsche Monatsschrift (3)

By NIH Consensus Development Program.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 54 pages. OCLC Number: 53907695 Excerpt: . . . Recommendations Educate the American public on the transmission of HCV in order to better identify afflicted affected individuals and and to institute preventive measures. Develop reliable, reproducible, and efficient culture systems for propagating HCV and expand basic research in the pathogenic mechanisms underlying hepatic fibrosis. Promote the standardization and wide availability of diagnostic tests for HCV infection and its complications, leading to early diagnosis and the implementation of appropriate treatment practices. Promote the establishment of screening tests for members of all groups at high risk of HCV infection, including IDUs and incarcerated patients individuals. Expand the delineation of disease manifestations, noninvasive tests, and the role of the liver biopsy, so that the application of current treatment practices may be refined. Establish a Hepatitis Clinical Research Network for the purpose of conducting research related to the natural history, prevention, and treatment of hepatitis C. Organize RCTs to extend treatment to special populations not represented in current clinical trials and to determine the applicability of accepted antiviral drug combinations to populations such as children and adolescents, and patients with acute hepatitis...
